

Market-Linked Products Underliers

DJIA® Index/Russell 2000® Index

Market-Linked Products, considered complex investments, may be linked to the performance of more than one underlying asset, such as the Dow Jones Industrial Average (DJIA)® Index and the Russell 2000® (whichever is lesser performing). Dividends paid on the underliers are not passed through to the Market-Linked Product. If held to maturity, any potential coupon payments or gains will be paid out based on the lesser performing index, as detailed in the offering documents. Additionally, your statement value will reflect any upward or downward movements in volatility of these indices.
